Distinguished Son of South Carolina Dies After Illness of Only Few Days.

WASHINGTON, February 20.—Sena-tor Asbury C. Latimer, of South Caro-lina, died at Providence Hospital at ad been at the hospital since Sunday last, when he underwent an operation for appendicitis. It was then discovered that he was suffering with a far more serious aliment. The bowels had become twisted, and his condition was found to be such that surgeons held out little hope for his recovery. He rallied, however, and his progress was satisfactory until 7 o'clock last evening, when steadily he began to grow worse. At midnight it appeared that recovery was impossible.

The members of the Senator's family were with him when he died, having been informed that there was little hope that he would survive the night. Colonel Ransdell, sergeant-at-arms of the Senate, at once made arrangements for the removal of the body to the Latimer home at Belton, S. C.

Mr. Latimer was fifty-seven years of age. He was one of the most earnest and conscientious committee workers in Congress, being a member of the Committees on Agriculture Immigration, Manufactures, Public Grounds and Buildings and Census, as well as others of less importance. He was expecially interested in good roads, and probably did more to promote the national movement for government building of good roads than any other member of Congress. He was the author of the Latimer good roads bill. As a member of the Manufactures Committee he gave much attention to the preparation of the pure-food law, and also pending copyright bill.

During last summer he visited Europe as a member of the Immigration commission and was preparing an elaborate report covering immigration commission and was preparing an elaborate report covering immigration commission and was preparing an elaborate report covering immigration commission and was preparing an elaborate report covering immigration formission and had served five terms in the House.

Body Talken to Belton.

There will be no official services in Washington. The funeral party left last, when he underwent an operation for appendicitis. It was then discov-
